

YOU'RE INVITED...

Immediate restoration of the fully edentulous patient UTILIZING THE ALL-ON-4 TREATMENT CONCEPT

Presented by STEPHEN SPOON, CDT

Sponsored by Clear Lake Periodontics, Dr. Robert Devoll and Nobel Biocare

Date	Time	Location	Tuition	CE
July 9, 2015 Thursday	Time: 6:30 - 8:30pm	Gringo's Mexican Kitchen 2202 Broadway St Pearland, TX 77581	FREE	2
July 16, 2015 Thursday	Time: 6:30 - 8:30pm	Johnny Tamale Cantina 4647 East Sam Houston Pkwy S, Pasadena, TX 77505	FREE	2

Course overview

This program will be presented by Steve Spoon, CDT, of Miracle Dental Lab, and will focus on the immediate restoration of the fully edentulous patient. Mr. Spoon will discuss the critical factors necessary to provide fixed implant-supported restorations.

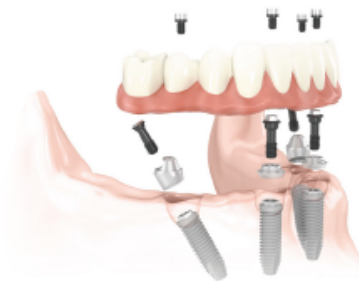

Considering the graftless approach allows for reduced treatment time, single-stage surgical reconstructions, and immediate loading. This eliminates the need for transitional dentures, therefore increasing the rate of treatment acceptance by patients.

Learning objectives

1. Setting patient expectations
2. Denture and surgical guides
3. Day of surgery – loading of the interim hybrid
4. Hands-on “all-on-one impression”
5. Final hybrid before and after

Attendees will receive:

– 2 CEUs

Stephen Spoon, CDT

Steve Spoon started his career in dental technology in 1973 in the United States Navy. He then went on to achieve his CDT status and worked for several high-quality labs until opening Miracle Dental Lab in 1990. Miracle is a full-service dental laboratory that was founded to serve the esthetically conscious dentists in the greater Houston area. Mr. Spoon is a certified dental technician with extensive experience in implantology ranging from the most straightforward single-tooth implant case to the most complex implant-based full-mouth rehabilitations.

Please RSVP by calling Dr. Devoll's office at 281-338-1760.
